Our Earth, Our Ethics

Cultivating a Sustainable Environment

Our Earth, Our Ethics

Another Turn of the Crank: Essays
by Berry, Wendell
333.7 BER
A collection of essays concerning the order and harmony of the earth and its inhabitants.

Apollo's Fire: Igniting America's Clean-Energy Economy
by Inslee, Jay
333.7909 INS
To free the U.S. of fossil fuel dependency while boosting the economy, we need the kind of visionary leadership that led to the Apollo moon landings in 1969.

Big Green Purse: Use Your Spending Power to Create a Cleaner, Greener World
by MacEachern, Diane
333.72 MAC
A guide to using the power of your pocketbook to solve the environmental crisis.

Cadillac Desert: The American West and its Disappearing Water
by Reisner, Marc
333.91 REI
The story of the American West is the story of a relentless quest for a precious resource: water. This is the story of the early settlers, lured by promises of paradise. The author documents the rivalry between government giants and other institutions, in the competition to transform the West, and projects on the future problems of limited groundwater reserves, silting up of reservoirs, and contamination of soil.

Earth Odyssey: Around the World in Search of our Environmental Future
by Hertsgaard, Mark
363.7 HER
An ambitious report on the global environmental crisis.

Earth, the Sequel: The Race to Reinvent Energy and Stop Global Warming
by Krupp, Fred
621.042 KRU
Reveals how the world can harness the capabilities of capitalist nations in order to address key environmental and economic challenges.

Earth Under Fire: How Global Warming is Changing the World
by Braasch, Gary
OVERSIZE 363.7387 BRA
