

# TouchTEAM

**TABLET ENGAGED ACTIVE MINDS**

*“I am for anything that helps her use her mind in a happy way.”*

---TouchTeam Participant

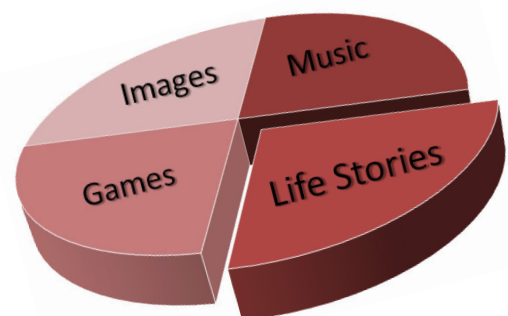

## *Do you know an older adult, a friend or loved one, experiencing memory loss?*

Forgetfulness can be frustrating for both those experiencing it and for their loved ones. Join us in this supportive social setting, for a series of innovative workshops in which we will use touchscreen tablets to engage the mind and activate memory. Individual coaches will be present for each “team.” July is **Life Stories** month. Featuring the ‘stories etc.’ app.

*You can expect to:*

- Record & share stories
- Enrich time spent together
- Boost interest and involvement
- Use reminiscence to engage and connect

**iPads provided** • A free program of the **Santa Cruz Public Libraries**

Ongoing classes start July 7th • Call (831) 427-7700 x7615 to register
