

\* Here is an easy and quick craft that you can do with your kids. They make wonderful decorations! |

### **Coffee Filter Butterfly**

#### **Instructions / Preparation - Fill spray bottle with water**

Give each child a coffee filter, have them color on it with markers.

Have them hold up the coffee filter and spray it with water. The colors should bleed and run together.

Once the filter has dried (10 min.), bunch it in the middle and clasp it with a clothespin.

Draw a smile and draw some eyes. Final touch will be pipe cleaners for antennae held by the tip of the clothes pin. If you don't have pipe cleaners, you can draw antennae and cut them out.
