

Tech Talks: Travel and Maps Apps (Apple)

Discovering the most useful apps for travel

Planning

Atlas Obscura	Hidden mysteries in your location
Wikipedia	Review history, economy, landmarks, parks, arts and annual events
Trip Advisor	Trusted app for reviews of all-things-travel across the globe

Flights

Hopper	Book flights with an easy to read price calendar
Google Flights	Easy to use Google scraper for flights
Priceline	Simple way to find deals on Hotels, Cars and Flights

Accomodations

Hotels.com	Hotel reservations with ratings and rewards program
AirB&B	Rentable private residences

Navigation

Apple Maps	Turn by turn navigation with exploring functions by Apple
Google Maps	Most used app for navigation and offline maps

Miscellaneous

Gametime	Find last minute tickets to sports, music and shows in major cities
Units Plus	Convert currencies and other measurements
Google Translate	Translate text, conversations and signs to your native language
Gas Buddy	Identify gas stations with lowest prices
ParkMobile	Conveniently locate, reserve and pay for parking spots
GyPSy Guide	Audio tour automatically plays during your road trip
