

#### LIBRARY JOINT POWERS AUTHORITY BOARD

Monday April 7, 2014 Downtown Branch Meeting Room 224 Church St, Santa Cruz CA 95060

6:00 PM CLOSED SESSION -

Evaluation of Library Director (Government Code §54957)

Held in Headquarters Downstairs Meeting Room 117 Union St (enter using 212 Locust St entrance)

6:30 PM PUBLIC MEETING

- 1. ROLL CALL
- 2. APPROVE AGENDA OF APRIL 7, 2014
- 3. ORAL COMMUNICATIONS
- 4. PRESENTATION

Dr. Don Model - Proposed Library Historical Project at East Side Triangle Park

- 5. CITIZENMEMBER SELECTION
  - A. Interviews:
    - i. Jennifer Balboni (PG.4-7)
    - ii. Sean Campbell (PG.8-13)
    - iii. Cindy Jackson (PG.14-17)
- 6. STAFF RECOGNITION
- 7. MEMBER REPORTS
- 8. CONSENT AGENDA

- A. Approve Minutes of March 3, 2014 (PG.20-24)
- B. Receive monthly narrative and statistical reports (PG.25-36)

#### 9. FRIENDS OF THE SANTA CRUZ PUBLIC LIBRARIES REPORT

#### 10. STAFF REPORTS

## INFORMATION ITEMS: To be handled as one item for public comment

- A. Receive Financial Snapshot for February (PG.37)
- B. Receive ILS Implementation Update (PG.38)
- C. Receive update on security study (oral)

#### **ACTION ITEMS**

- A. Authorize Library Board Chair to send letter on behalf of LJPB in support of two pieces of legislation (PG.39-40)
  - i. SB 1455 a major library construction bond measure,
  - \$2.2 million in January budget to provide new, ongoing funding to connect all public libraries to a statewide, high-speed broadband network operated by the Corporation for Education Network Initiatives in California (CENIC)
- B. Approve contract with Envisionware for upgrading self-check system (PG.41-64)

#### 11. OTHER BUSINESS

 A. Receive Facilities Master Plan Implementation update and provide direction to Library Director (PG.65-74)

#### 12. WRITTEN COMMUNICATIONS- INFORMATION ONLY

- A. Patron Written Comments (PG.75-77)
- B. Security Incidents Log (PG.78-81)
- C. Website Statistics for February and March 2014 (PG.82-83)
- D. Articles about Santa Cruz and California Libraries (PG.84-87)
- E. Articles on Libraries Nationwide (PG.88-91)

#### 13. BOARD MEETING CALENDAR

The Board will consider its current meeting schedule and may revise it as necessary.

#### 14. NEXT MEETING

The next regularly scheduled meeting is Monday May 5, 2014 at 6:30 pm at the Downtown Branch Library.

#### 15. ADJOURN

The Library Joint Powers Authority Board will adjourn from the Regular Meeting of April 7, 2014 to the Regular Meeting of May 5, 2014 at 6:30pm at the Downtown Branch Library Meeting Room.

The Santa Cruz City-County Library System does not discriminate against persons with disabilities. Out of consideration for people with chemical sensitivities, we ask that you attend fragrance free. Upon request, the agenda can be provided in a format to accommodate special needs. Additionally, if you wish to attend this public meeting and will require assistance such as an interpreter for American Sign Language, Spanish, or other special equipment, please call the Library Administration Office at 427-7706 at least five days in advance so that we can arrange for such special assistance, or email subfinders@santacruzpl.org.

#### Occupation:

Owner of Joy of Movement Pilates & Gyrotonic in Aptos CA; Pilates and Gyrotonic Instructor

How long have you been a resident of Santa Cruz County?

I have lived in Santa Cruz County for 22 years and in Aptos for 20 years.

Briefly describe why you want to serve on the SCPL Joint Powers Board. I am a life-long lover of libraries and see the library as a pivotal part of our community. I would very much like to utilize my skills to keep it as strong and relevant as we go through these challenging times brought on, in part, by rapid changes in technology and funding.

Briefly describe the specific knowledge, education, experience, abilities and skills you feel would be valuable to the Board.

I offer a broad range of skills culled from my years as a professional journalist, project manager, small business owner and movement educator to bring to the role of citizen board member. As a journalist for the San Francisco Chronicle, Chicago Tribune and Contra Costa Times I reviewed hundreds of city budgets. As a project manager for Mediware Information Systems in Scotts Valley and Plantronics in Santa Cruz, I worked with a diverse group of individuals to complete projects. As a small business owner for the past 8 years in Aptos I have daily contact with hundreds of community members each week and have developed wonderful communication skills and understand the needs and ordonnance of this area in an intimate way.

Please indicate areas in which	your knowledge w	ould benefit the Board:
--------------------------------	------------------	-------------------------

X	Finance
X	_ Strategic Planning
	Legal
X	Government Relations
X	Management
Χ	Human Resources
Χ	<b>Building Programs</b>
Χ	Technology
Χ	Marketing
	Librarianship
	Other (please explain

List and briefly describe current or former involvement in community or professional organizations that you feel is relevant to your candidacy for the Board.

I have been active in local environmental groups, charities for preventing violence against women, reading groups and advocacy groups for inspiring more women to get involved in local politics. I also organized and led a support group for people with cancer for many years. Being involved in the community and developing leadership skills are germane assets for involvement in the Board.

### How would you describe your knowledge of the Santa Cruz County Public Library system?

I have visited most of the 10 branches of the library system and have visited my local branch in Aptos at least once a week for the past 20 years. When my children were growing up, we participated in many of the wonderful library programs for children. So I am very familiar with the library as a patron. I

understand our system is public and that most of the funding comes from property taxes. Most importantly, I am willing and able to do the research it takes to gain a comprehensive understanding of our county's system.

What do you think are the library's most important roles in the community? I started visiting libraries when I was 9 years old and have been a VERY active library member ever since. I LOVE libraries; even adore them. I have visited hundreds of libraries around the country especially the older ones back east dating to the mid 1800s.

Our libraries are a vital, integral part of our communities because they represent our greatest values as Americans--open-mindedness, knowledge, inclusiveness, freedom, equality and truth.

In addition, libraries foster community and connection; to ideas, to each other and to ourselves. I would not want to live in a world without libraries.

#### What are some of the challenges facing libraries?

Our libraries today appear to be in a state of massive change i.e. crisis. Most of these challenges appear to be techlogical and financial. Libraries are dealing with rapidly shrinking budgets as well as sweeping changes in reliance on digital media.

Some libraries are getting rid of books altogether and going digital. Questions are being asked such as "What belongs in a library?" as well as, "What is worthy?" Libraries must deal with lack of space and lack of funding at a time when publishing is skyrocketing. Acquisition costs are escalating, as are costs for staffing, preserving, and maintaining not just the materials but the buildings too. Computer equipment takes up an increasing percentage of budgets, as do services for special-needs individuals.

#### What are some of the opportunities facing libraries?

All challenges can also be viewed as opportunities—so there are wonderful opportunities to help forge the library of the future developing new methods of funding and new technological ways of storing and retrieving information.

Additionally, I think there are always opportunities to attract new people to the library. Attracting more young people, more racially diverse people and more people who have not had the privilege of a formal education might be an important opportunity.

Another opportunity is expanding the image of libraries; enhancing the public respect for libraries and librarians.

What are your goals in serving on the Board? I would be honored to serve and to take charge of to take on. My goal is to see the library get stronge generation of patrons.	
Do you have regular access to email and the In Yes and yes. My e-mail address is Jenniferbalboni via my i-phone 24/7.	
Provide any other information that you feel would be	pe of interest.

117 Union St.

Santa Cruz, CA 95060

Name: Javier Sean Campbell (Sean)

Address: 2439 Harper Street

Santa Cruz, CA 95062

Phone: 831-334-1150

Email: mrseancampbell@gmail.com

Occupation: (If retired, what was your occupation?)

Current: Accountant, County of Santa Cruz

Former: Financial Planning and Analysis Manager, Ticketfly (San Francisco technology startup), small business owner, co-owner of Slug Books Co-op (UC

Santa Cruz textbook retailer).

How long have you been a resident of Santa Cruz County?

A total of 6 years, in two stints (2002-2006 and 2011-present).

#### Briefly describe why you want to serve on the SCPL Joint Powers Board.

I am interested in providing a forward-looking perspective on the role of libraries in the modern economy and modern community. Pre-internet, libraries served partially as a gateway to and a collection of the knowledge, experience, and perspectives of humanity. While they still serve that function today, the level of access to those gateways and collections (and their content) have changed radically. In business terms, public libraries have shifted their location within the information value chain from a primary source to a source of curation, presentation, and access enhancement. I also believe that libraries can be a key resource in mitigating the negative effects of the digital divide and providing our current and future workforce with tools and skills to participate in the information economy. This is particularly important in Santa Cruz County as our region is both socioeconomically stratified and suffers from "brain-drain" due to the high cost of living relative to median income. I view organizations such as SCPL as vehicles for community engagement, skills development, and overall enhancement of the public welfare.

## Briefly describe the specific knowledge, education, experience, abilities and skills you feel would be valuable to the Board.

I am an MBA with experience in the social sciences as well as a history in small business, technology startups and local government, giving me well-rounded experience with organizations of various sizes. My technical abilities include substantial familiarity with financial management and operations, statistical concepts, long-term planning, and methods of data organization, access, and interpretation. I am well versed in iterative processes endemic to the implementation of new technologies and the possibilities offered by such.

I bring the perspective of a person who relocated to Santa Cruz from San Francisco, partially because of the quality of life and public goods available to residents of the County. I remember well the experience of doing research at the UCSC library, discovering previously obscured fields of inquiry by simply browsing the racks and looking at collections of things I never considered looking up on the Internet.

I also bring some experience in the book industry. I co-owned Slug Books Co-op from 2004 through 2005. Slug Books Co-op was a textbook retailer focusing on UC Santa Cruz textbooks. It eventually closed down, primarily due to Internet competition from Amazon, Chegg and similar. During its existence, Slug Books employed hundreds, served thousands and saved these students hundreds of thousands of dollars by providing an innovate, low-cost alternative to the campus bookstore.

I also assisted in copyediting my father's book *Choosing Democracy: A Practical Guide to Multicultural Education*. Upper Saddle River, NJ: Merrill, 2004.

X_	Technology
X_	Marketing
	Librarianship
	Other (please explain:

List and briefly describe current or former involvement in community or professional organizations that you feel is relevant to your candidacy for the Board.

I have not been previously involved in a community organization; I have spent my adult life primarily engaged in educational, business, and career pursuits. I was a regular patron of the Museum of Art and History during my wife's employment there.

## How would you describe your knowledge of the Santa Cruz County Public Library system?

I have visited several branches during my time in Santa Cruz and patronize the Live Oak branch. I view my own experiences with SCPL as perhaps others in my demographic and economic group do: aware of libraries, supportive of their existence as public goods, not historically highly engaged with libraries because of our patterns of media consumption (Internet-based, followed by e-books and the purchase of books online). I am familiar with the financial model, the Facilities Plan, the Strategic Plan, and the Technology Plan, and will continue to familiarize myself with SCPL's history.

#### What do you think are the library's most important roles in the community?

Libraries can and do serve several roles.

Community-owned space: Given the physical footprint, libraries provide space for community groups, classes, and meetings, encouraging the maintenance of civil society.

Learning centers: Libraries provide physical tools (computers, books, software) and subject matter experts in a variety of fields. Human resources in the form of high-quality staff provide the connection between hearing about a subject, a technology, or an idea and turning it into an opportunity for skill development and life enhancement. They can also provide a source of mass, affordable training in basic job skills in several fields.

Knowledge repositories and curators: in today's economy access to data and information has been widely (though not completely) democratized. A key function of libraries is to organize this information into attractive collections to engage the public and foster discovery of fields new to the patron. Libraries are also key in teaching concepts of information quality and relevance, particularly to younger people.

Facilitating childhood development and early engagement in learning: Libraries are wondrous places for children and can be a key driver of early engagement with reading.

#### What are some of the challenges facing libraries?

In my view the main challenge facing SCPL and public goods generally is the need to stay relevant to the community given the shifting needs, wants, and financial resources of the population. Similar to museums, libraries are undergoing an existential examination of the question, "what is the library for?" For some people, the library is a quiet place to read or to go on the Internet. Some people go to the library to learn about new subjects, some bring their children to reading events, and some go for community meetings. The challenge is to provide the best possible range of services and resources while not only engaging the existing users and their preferences, but also potential users and their preferences. I believe this entails regularly trying new programs, evaluating them, and seeking to make connections with organizations who can assist with them.

A related challenge is sustaining the funding base and financial model of the SCPL, given that prioritization of library funding is ultimately a political decision made in an environment with competing priorities.

#### What are some of the opportunities facing libraries?

Libraries have a tremendous amount of goodwill in this community. SCPL has an active "Friends Of" organization and a strong physical footprint. The organization has a clear vision and effective oversight. Given these strengths, I believe SCPL has the opportunity to grow and diversify utilization through a systemic commitment to program development and iteration, enhancement as a source of technological and skills learning, and expansion of access and marketing efforts. If SCPL can orient itself toward serving traditional library functions while being a place where you can learn new skills, learn about new subjects, and participate in your community, it will have succeeded in its mission. Marketing and branding efforts are particularly key: community members should know "I can do or get 'X' at the library" even if they've never been to a branch. In general, libraries should rise to the challenge of becoming community spaces with books, computers, local history and other media that serve a wide range of demographic groups.

#### What are your goals in serving on the Board?

As a member of the board, I would seek community involvement and pluralism as means to a more effective system. I would seek to particularly focus on the augmentation of SCPL's offerings to both historically disadvantaged groups and working-age adults. I am interested in working with staff, the Board, and other organizations on enhancing skills training programs in fundamental software applications such as the Microsoft Office Suite, basic computer knowledge, hardware and software platforms such as e-readers, and similar. SCPL could enhance links and share resources with organizations such as the Small Business Development Center, Career Centers, youth centers and similar. I believe ideas such as these can engage more participation in SCPL.

I also aim to ensure that SCPL has a strong geographic and service footprint within all areas of the County. The unincorporated area of the County contains a large share of the population as well as some of our most historically disadvantaged and economically challenged community members. Ensuring that these community members have a voice on the Board is important.

I am enthusiastic about the 2013-2018 Technology Plan and the ILS and its ability to provide both enhanced service and the data necessary to measure quality and use of SCPL facilities, programs, and resources, allowing the Board and staff to make more informed decisions. I aim to serve the SCPL system as an effective representative of the citizenry, advise, learn, and facilitate the path to a more effective and dynamic public good.

Yes.

Name: Cindy Jackson

Address: 26 Arbolado Drive

La Selva Beach, CA 95076

Phone: 831-662-2374

Email: cinjackson@sbcglobal.net

#### Occupation: (If retired, what was your occupation?)

Since moving here in 2005, I have been actively involved in the La Selva Beach Branch Library as well as with the LSB Chapter and county-wide Friends of the Santa Cruz Public Libraries. I owned a small retail business (a private post office/packing/shipping) for 15 years in Dallas. I also had the opportunity to help create a high school for an already existing pre-K through 7th grade independent school. We recruited students, hired faculty, created curriculum and I acted as registrar and dean of students for our first two classes.

How long have you been a resident of Santa Cruz County? I moved here in the fall of 2005.

Briefly describe why you want to serve on the SCPL Joint Powers Board. I believe that this is a critical time to serve on the Board when branches are in such serious need of renovation and replacement.

Briefly describe the specific knowledge, education, experience, abilities and skills you feel would be valuable to the Board.

I served on the Library Task Force investigating different service models for the SCPL in 2010 which introduced me to the system's departments, all the branches and library professionals' opinions about what library systems should anticipate. I have been very active in the Friends of the SCPL and serve as president of the La Selva Beach Chapter. In that capacity, I have raised funds specifically for LSB through book sales and community events. Those funds have been used to provide programming for both children and adults and a very popular browsing collection of bestsellers. I have raised funds for the entire system in my role as a member of the Board of the Friends of the SCPL and a member of the Development Committee of the Board.

Please indicate areas in which your knowledge would benefit the Board:

S

<u>List and briefly describe current or former involvement in community or professional organizations that you feel is relevant to your candidacy for the Board.</u>

I serve as the Membership Director for the La Selva Beach Improvement Association and I have mentioned my Friends of the SCPL work above. I'm a member of the Los Gatos United Methodist Church and have provided lunches for the Santa Cruz Habitat for Humanity construction crew quarterly for the last 5 years.

## How would you describe your knowledge of the Santa Cruz County Public Library system?

I am very well acquainted with the branch operations of the LSB Branch having organized and recruited volunteers to expand hours of service after service cuts in 2009. By serving on the library's Task Force and my work on the Friends' Board, I feel well acquainted with the administrative functions that support all branches. I have also attended most of the LJPB meetings for the last 2-3 years.

#### What do you think are the library's most important roles in the community?

To provide a physically welcoming space for programs designed to enhance childhood literacy, to promote life-long learning and to provide books and materials and technological resources (including WiFi) at no charge to all members of the community, both physically abled and disabled.

#### What are some of the challenges facing libraries?

All libraries are faced with balancing the need for access to digital materials and books with the need for paper books and materials. Our system is challenged with aging facilities and their need for renovation to accommodate a different use of technology and different programming. Assuming a bond measure in the fall, a specific challenge will be to educate the voters county-wide about the advantages of renovated and new facilities for our system and encourage their vote.

#### What are some of the opportunities facing libraries?

How can the library's programming facilitate the increasing use of technology in all of our lives? How can the library's presence in the county's diverse communities facilitate community discussions and involvement? What decisions need to be made to continue the stronger financial footing of our system?

#### What are your goals in serving on the Board?

My goal is support the library system in whatever way I can. Specifically, I think I can communicate the importance of additional funding through a bond measure so that all branches can efficiently and effectively serve current and future patrons.

#### Do you have regular access to email and the Internet? Yes

Provide any other information that you feel would be of interest.

#### STAFF REPORT

DATE:

April 1, 2014

TO:

Library Joint Powers Board

FROM:

SCPL Recognition Committee

CC:

**FSCPL** 

RE:

Staff Recognition Monthly Report

#### **SUMMARY**

The Library has instituted a way to recognize staff formally and on an on-going basis. The committee will be recognizing these individuals monthly in a report to the LJPB.

#### Mission

Staff are our most valuable resource and as such, are deserving of ongoing recognition to feel connected and to keep morale high. The Staff Recognition Committee is charged with developing ways to accomplish this purpose.

#### **NOMINATIONS**

#### James Fischl

James comes into work every day with a positive attitude, ready to give extra help wherever help is needed. He consistently ensures that the oversize section is organized and neat. In addition to his goal-oriented work ethic, James makes sure to encourage others to keep their head up and be efficient. Overall, he contributes to creating a pleasant work environment for everyone (Nominated by N. Dreszer).

#### Fred Ulrich and Diane Cowen

Fred and Diane provided wonderful reference support when I called from the Aptos Branch asking for help with a reference question. Fred gathered some books from the Californiana collection to consult and suggested other sources. He and Diane showed excellent teamwork and support for Reference services. The patron was very grateful for the level of assistance provided (Nominated by S. Harbison).

#### **Anthony Thomas**

On-Call Anthony Thomas answered the telephone at Scotts Valley today to a patron whose first words were; "I'm going to kill myself..." Without missing a beat Anthony

answered; "I hope I can talk you out of that! How can I help?" He then proceeded to listen carefully to the frantic patron. As it turned out this person had left the only existent copy of an original manuscript at the library with no contact information inside the binder. As it turned out Scotts Valley did have the manuscript in their lost-and-found, and all is well. I have a feeling that even if the library did not have the manuscript in question, Anthony's empathetic demeanor and consistent customer service would still have made a difference in this person's day. Bravo Anthony (Nominated by Maile McGrew-Frede).

#### Janis O'Driscoll

Thank you so much for your extraordinary support at the council meeting yesterday. You went above and beyond in your generosity and time spent sharing your support for the Abbott Square project. I know that your involvement made a difference, and I'm so sorry it involved so much time waiting. I am excited to work with you to make Abbott Square and especially this special back area a place for transformative learning experiences for families. Thank you, thank you, thank you. You are a real friend to the MAH and we greatly appreciate it. We are lucky to have you as a partner and as a leader in our community (Nominated by N. Simon, Executive Director of the Santa Cruz Museum of Art & History).

#### SANTA CRUZ PUBLIC LIBRARIES A CITY-COUNTY SYSTEM

#### LIBRARY JOINT POWERS BOARD

#### **MINUTES**

Aptos Branch Meeting Room 7695 Soquel Drive, Aptos, CA 95003

March 3, 2014

6:30 PM PUBLIC MEETING

1. ROLL CALL

Present:

Supervisor Zach Friend, Supervisor Bruce McPherson, Councilmember Cynthia Mathews, Councilmember Michael Termini, Councilmember David

Terrazas, Citizen Member Jim Mosher

Absent:

Citizen Member Dick English

Absent until 6:32 pm

Councilmember Jim Reed

Absent until 6:37 pm

Citizen Member Martha Dexter

Staff:

Teresa Landers, Library Director; Marcus Pimentel, Finance Director

2. APPROVAL OF MEETING AGENDA OF MARCH 3, 2014

Councilmember Termini moved, seconded by Councilmember Mathews

That the Board approve the Agenda of March 3, 2014

**UNAN** 

Absent: English, Dexter, Reed

#### 3. ORAL COMMUNICATIONS

None

#### 4. PRESENTATIONS:

- A. Resolution to recognize Snapshot Stories volunteers and staff
  Chair Terrazas expressed appreciation for the efforts of 21 staff members and volunteers to successfully complete an ambitious several months long project which helps provide local history materials for the Library's collection. This project occurred in collaboration with UCSC, the Museum of Art and History, and Researchers Anonymous. David Terrazas presented Certificates of Appreciation to everyone involved. Director Landers noticed that Janis O'Driscoll, who spear-headed the project, had humbly left out her own name of the group of honorees. Director Landers asked that Janis O'Driscoll's name be added to the Resolution.
- B. UCSC University Librarian Elizabeth Cowell gave a presentation on libraries in the digital age and the work UCSC did to improve their facilities. She outlined the changes in user behavior as well as staffing changes and gave examples how these changes manifested. Service points have been merged into one desk, collections have been consolidated and improvement of the network has been done. Quiet study spaces have been created and are very much in demand. Roving students who have been trained by staff are able to support library users.
- 5. STAFF RECOGNITION
- 6. MEMBER REPORTS

None

7. CONSENT AGENDA

Councilmember Mathews moved, seconded by Citizen Member Mosher

That the Board approve the Consent Agenda of March 3, 2014 pulling item 7 A for further discussion.

UNAN
Absent: English

A. Approve Minutes of February 10, 2014

#### Councilmember Mathews moved, seconded by Supervisor Friend

That the Board approve the Minutes of February 10, 2014 with the following change on page 9: "Input" was given .... instead of "Direction" was given.

UNAN
Absent: English

B. Resolution to allocate Whalen funds for land appraisal for new Felton branch library.

That the LJPB authorize the transfer of \$10,000 from the Whalen Trust to be used for fees for an appraisal of the property being donated to the County for a new Felton Branch Library and that it amend the FY 2013-2014 budget. (Resolution #2014-002)

UNAN Absent: English

#### 9. FRIENDS OF THE SANTA CRUZ PUBLIC LIBRARIES REPORT

Sharon Maxwell, Board Member of the Friends of the Library reported that

#### In February 2014, FSCPL...

- Received a \$2000 grant from Safeway for Let's Play Kits
- Had a table at the Capitola Chamber of Commerce Business Showcase

#### FSCPL plans include...

- Starting a blog to showcase SCPL and FSCPL accomplishments
- In April Another "Wine in the Stacks" event is planned with local author Steven Bignell in attendance.

#### 10. STAFF REPORTS

- A. Monthly Narrative Report: February 2014
- B. Statistical Report.
- C. Financial Snapshots January. The Board reviewed the report and Finance Director Marcus Pimentel responded to several questions. January showed a negative

- deficit due to two pay cycles, but cash still exceeded the minimum. February is projected to return to a positive month.
- D. ILS Implementation Update. Director Landers announced the complete system shut-down from March 12 through March 15 for Technovation2014 improvements. Library branches will stay open during their regular hours.
- E. Estimated cost of additional hours in new branch buildings. Director Landers presented the report and responded to a number of questions. The Board members reviewed and discussed the report. The Board received the report for future updating and consideration after financial measure is approved.

#### 11. OTHER BUSINESS

- A. Facilities Master Plan Implementation Update (include staffing and hours example). The Board members reviewed and discussed the report. Director Landers responded to a number of questions. If necessary a special meeting may need to be scheduled since the timing is crucial.
- B. Election of Chair and Vice-Chair

#### Councilmember Termini moved, seconded by Citizen Member Mosher

Councilmember Termini nominated Councilmember Terrazas as Chair.

**UNAN** 

**Absent: English** 

Councilmember Mathews nominated Councilmember Termini as Vice-Chair.

**UNAN** 

**Absent: English** 

C. Direction to Library Director on letter to the County on restrictions as to the location of marijuana dispensaries near public library branches.

#### Councilmember Mathews moved, seconded by Citizen Member Mosher

That the LJPB direct the Library Director to draft letters for signature by the Chair of the LJPB to go to all local jurisdictions asking that in the future limitations on sales or activities related to controlled substances near schools be applied equally to public libraries.

Ayes: Mathews, Termini, Terrazas, Friend, Mosher, Dexter

Naves: McPherson, Reed

**Absent: English** 

D. Appointment of Finance Committee replacement. It was decided that this item should be held until Board member English's replacement occurs.

#### 12. WRITTEN COMMUNICATIONS

- A. Patron Written Comments
- B. Security Incidents Log. The Board discussed a number of particularly egregious incidents. Councilmember Mathews strongly suggested that the Library Director connect with the local Police Department and the Sheriffs' Department to get very clear on procedure for making citations, bans and arrests where possible and to convey this information to staff.
- C. Articles about Santa Cruz and California Libraries
- D. Articles on Libraries Nationwide

#### 13. BOARD MEETING CALENDAR

No changes

#### 14. NEXT MEETING

The LJPB will adjourn from the Regular Meeting of Monday, March 3, 2014 to the next regularly scheduled meeting on Monday, April 7, 2014 at 6:30 pm at the Downtown Branch Library Meeting Room.

#### 15. ADJOURN

The regular meeting adjourned at 7:59 p.m.

Respectfully submitted,

Helga Smith, Clerk of the Board

All documents referred to in these minutes are available in the Library Office.

#### **MONTHLY REPORT FOR MARCH 2014**

#### 1. READING, LISTENING AND VIEWING FOR PLEASURE

### A. Children in Santa Cruz County will enter school ready to read, write, listen and learn.

Storytime at Garfield Park is growing and going strong with regular attendees. However, the program team will be looking at programs for Garfield Park in light of changing demographics in the area. There seems to be more young families and more seniors and fewer school age children.

Toddler Times at Live Oak, Scotts Valley, Boulder Creek, Aptos, and Downtown are very popular.

Storytime at Branciforte is small (5-6 children) and there seem to be different children each week. It is on the same day and at the same time as storytime at Downtown which is flourishing.

Reference Team member Valerie Murphy led class visits: March 20 B40 Middle School March 27 Holy Cross 3rd grade

Reference Team members Valerie Murphy & Patty Webster also substituted for Programming staff at storytimes at Downtown (twice) & La Selva Beach.

## B. All ages will have materials, programs and displays that reflect current community interests and provide pleasurable reading, viewing and listening experiences that help them reach their personal literacy goals.

The book displays for Scotts Valley patrons provided a diverse range of selections to choose from: Books Made into Films; All about dogs; Books with blue covers"I don't know what the book was but the color of the cover was blue"; Wise Water Conservation and a music display complete with shelf-talkers.

A Community Poetry Circle was attended by aspiring poets in March at the Scotts Valley branch

Book displays for Branciforte this month were: Saint Pat's/Green displays in Youth and Adult areas. We did a Dr. Seuss display in the youth area in honor of his birthday.

The Reviewers continue to provide reviews, booklists, & displays for the entire system. The rotating feed of Staff Picks has been restored to the SCPL homepage, with several new reviews of adult, teen, & children's material followed immediately by upticks in requests for these items.

Reference staff also provided 2 wonderful new bibliographies of young reader's choices for 2- & 3-yr olds (the young reader, now 3, is a team member's daughter). These bibliographies are in the Community Picks section of Reader's Link, along with staff & public picks for the best of 2013.

Barbara Lockwood, an artist from Scotts Valley, displayed 550 of her Fabric Postcards in Boulder Creek's meeting room through March. This is a very popular and beautiful display.

BC's aides, Whitney James-Heskett, Chloe Woodmansee & Alex Glass, created book displays on St. Patrick's Day, National Umbrella Month, Cats, Bugs (all for kids), Time (for adults) and Recommended Favorites (for teens). BC aide, Jesse Koshlaychuk, has been helping our Programming Librarian, Kari Gunn, with our afterschool craft program until our volunteer, Irene Johnson, returns.

Live Oak had both a children's and adult book display celebrating National Nutrition Month 2014. The library has many books on the subject of nutrition and beautifully illustrated cookbooks to help our patrons find new, tasty, and healthful recipes. We recently added two new children's series to our collection: Cool Recipes for Your Heath and a bilingual series on healthy foods for kids that fit right in to our display.

Local resident Alene Smith displayed her photographs in the main display case at Live Oak. Many of her family and friends stopped in to the library to see her work.

The children's display case at Live Oak has a display by the Good Golly Miss Molly Doll Club. The case is filled with a variety of amazing handmade dolls—everything from angels to steampunk!

March displays at La Selva Beach attract a lot of readers attention. They are put together by the LSB's Library Aide Lucia Corrales.

- 1. Grow, Learn, Read
- 2. March Women's History month

## C. People of all ages will have friendly support and intuitive access to the materials and resources they want.

Branciforte has moved all of their Romance books to a rounder display in the adult area, making more room for Science Fiction books. They moved the paperback Mystery books closer to the front of the library. They weeded the uncataloged Young Adult and Juvenile books.

#### 2. LIFELONG LEARNING

A. People will have access to a relevant collection of resources in diverse formats for all ages.

Jeanne O'Grady, Eric Chalfant, and the Volunteer Team are working to provide withdrawn cassette audiobooks to homebound patrons who cannot use other media or large print materials.

BC continues to weed their nonfiction collections to make room for new and current selections. Chloe Woodmansee also shifted books in their teen room to make room for new books and displays.

The Juvenile CD collection at the La Selva Beach branch had been moved to make it more visible and accessible by our young patrons and their parents.

B. Library users will have access to innovative and successful programming which reflects the cultural, educational and informational needs of the diverse communities served by SCPL and which will help learners of all ages to achieve their goals.

Special programs for the preschool set included celebration of Dr. Seuss' Birthday with volunteer storyteller Andria Gordon and visits from Rock Lerum and his group of acrobatic Orchard School performers. Rock and 12 kids also performed for the group at Hope Services. The audience was delighted by the juggling.

The Reference Team provided patrons with the opportunity to enhance their skills in the use of their iPads on March 3 at the Scotts Valley branch.

Certified trainers from Covered CA were at Scotts Valley on March 12 to provide assistance and answer questions about the Affordable Care Act.

The program team will be evaluating all programs and shortly begin planning for the Fall schedule.

About 15 adults showed up for the Fabric Postcards workshop taught by artist Barbara Lockwood. They had a great time creating small fabric collages. A class for kids was held right after and about 18 happy kids made more Fabric Postcards!

Covered CA had a table at Live Oak with two certified assistants to help answer patron questions about signing up for health insurance before the March 31<sup>st</sup> deadline.

Downtown's monthly book discussions, led by Reference Team member Julie Richardson, continue to draw a large & lively group of readers.

The Armchair travel Adventure club at La Selva Beach "visited" Australia in March. Our next destinations are: Tanzania in April and Ukraine in May.

The Reference team continued to offer its ever-popular e-books, e-audio, & beginning iPad classes at DTN, SCV, & APT.

Mega Machines is picking up steam at Garfield Park, but not so much at Downtown. Simple Machines (the Legos program) is wildly popular at both La Selva Beach and Aptos.

C. People will have access to innovative technology and the tools necessary to find, evaluate and use information and resources to meet their learning needs.

Reference Team member Victor Willis, working with the SCPL Marketing group, instituted a Fri hashtag pointer that leads #FridayReads participants to staff picks reviews on the SCPL website.

We recently learned that the University of California Riverside Center for Bibliographical Studies and Research was collaborating on a project with Ancestry.com to make the Santa Cruz Sentinel available digitally back to 1856. There was to be a 3 year embargo and after that time it would be available for free. Staff from the University contacted Ancestry.com about purchasing access until the free access is a available. They appear to be willing to grant us access at no charge. This will be arranged once we have migrated to Polaris as it involves LIT resources to accomplish.

#### 3. COMMUNITY CONNECTIONS

A. The library will initiate and nurture partnerships with the public, private and nonprofit sectors in Santa Cruz County for the mutual benefit of the partners, the library and the community.

The Scotts Valley Chamber of Commerce sponsored a free informational financial planning work shop in the Scotts Valley Fireside Room on March 8.

Program librarian Brenda McIlroy continues to visit Papas once a month. She is also working with Papas program coordinator to coordinate the program activities for the rest of the month. They are working on lesson plans together and collecting reusable craft materials as well as sharing some library resources for crafts.

The Veteran's History Project is growing. On Tuesday, March 11th, Jennifer Cockerill & Maile McGew-Frede held the first informational session about the Veterans History Project with the public at Dominican Oaks. 18 residents attended. They had tremendous help and support during the presentation from the Dominican Oaks Activities Director Margie Paylow. Jennifer gave a brief presentation about the project and then quickly went to a Q&A session. A wide range of questions was asked. It was a very lively and engaged group!

Margie Paylow created fliers for our talk, put an announcement in the Dominican Oaks Newsletter, and talked to many residents directly. She also has already found a space at Dominican Oaks for the interviews to take place. Two Dominican Oaks residents have been scheduled for interviews.

Janis O'Driscoll and Jennifer Cockerill met with our local Veteran Services Officer (VSO), Christopher Lopez, to discuss working together to reach out to the veterans in our community. He was very happy to partner with us. He is devoted to reaching out to as many veterans as possible to get them the benefits they are entitled to regardless of which conflict they were involved in.

Patrice Keet is spearheading the development of a Children's Discovery Museum in Santa Cruz County. Even though they are still looking for a location, the Library and the Discovery Museum began presenting collaborative events in March. Once a month the Museum will bring a program into one of our branches that they arrange. The March family program was Yardmap (Citizen Science Project on habitat management) www.yardmap.org

Pete Cullen of the Friends connected us with Irena Polic and Courtney Mahaney of UCSC's Institute for Humanities Research. Fellows associated with the Institute are interested in collaborating with the Veteran's History Project and the War Comes Home community read. What's in the works? graduate students interested in oral histories working with middle school students and high school students taking family veteran's oral histories; historian working with SCPL staff on Veteran's History Project; a classicist giving a public talk about warriors returning home in ancient times and drawing parallels to present day, a writer working with veterans.

## B. People will strengthen their ties with each other, the community and the library.

Hanna Pitz and Jason Pell of the Volunteer Coordinator's office and Diane Cowen, Virtual Services Librarian, came to BC to film a PSA about our meeting room. BC aide, Chloe Woodmansee, agreed to be filmed and interviewed as the face of BC.

## C. The community will recognize the value of SCPL in improving their lives and will recognize SCPL as an asset to their community.

We have had excellent feedback for our partnership with Covered California (coordinated by Julie Richardson) as well as our continuing partnership with Project Scout. While the logistics of hosting such services can be challenging, the thanks of members of the public make it clear that they value these partnerships greatly.

#### D. Volunteers will be used effectively.

Volunteer storyteller, Andria Gordon, helped the Program Team celebrate Dr. Seuss' birthday at preschool storytimes at Garfield Park, Downtown, La Selva Beach, Live Oak and Capitola to the delight of the preschool crowd.

In the rolling 12-month period between 3/1/13-2/28/14, the number of active volunteers and total number of volunteer hours increased 20% and 24% respectively over the previous rolling 12-month period.

In January, February and early March SCPL welcomed 26 new volunteers assigned to a variety of library programs including Legos Simple Machines, Adopt-a-Shelf, Tales to Tails, Summer Reading Program, Advisory Council of Teens, Toddler Time, Homework Help, and the Spanish Translation Team. A branch clean-up day at the Felton Library attracted seven volunteers including four new event volunteers.

In the first two months of the Volunteer Milestone Award program, letters and personalized bookplates were sent to 18 volunteers who accumulated 100, 200 or 300 hours of service.

April 6-12 is National Volunteer Week. In recognition of their service, SCPL volunteers will each receive a personalized thank you letter signed by Teresa Landers and David Terrazas, a stainless water bottle imprinted with the SCPL logo and a thank-you message, and a personalized ID badge. Teen volunteers will also receive a note with a gift certificate redeemable at the Friends Bookstore. The website, electronic messaging boards and social media also are highlighting this event.

Boulder Creek has two new Tales to Tails volunteers: Melinda Pasquinuuci and Stacey Otlin. We are very happy to have them; their presence insures the success of the Tales to Tails program at BC.

Reference Team member Leslie Auerbach met with FSCPL volunteer (& blogger) Anna Korotina to discuss how Anna can work with the Reviewers to highlight our collections and help staff understand how the public views our collections. Anna

has excellent ideas & we except her to be a valuable resource for both staff & patrons.

#### 4. WELCOMING PLACE

A. Identify the physical changes and funding required to provide 21st-century library facilities.

The ballot initiative will need to be postponed to June 2015.

- B. The virtual branch meets the definition of a welcoming place.
- C. People receive service at the level they need and want.

#### 5. FINANCIAL SUSTAINABILITY

- A. The library system maintains a healthy and stable financial position.
- B. There is adequate, stable and diverse funding to finance ongoing operations, key strategic initiatives and capital projects.
- C. Services of a defined level and quality are consistently delivered based on revenue projections and supportive organizational and operating structure.
- D. The library operates efficiently and focuses on continual improvement.

#### 6. ORGANIZATIONAL READINESS

A. Staff receives adequate training to do their jobs effectively.

Staff have been using their training time to learn and master the new computer program, Polaris in order to be prepared for April 9. An online forum is being actively contributed to and consulted by staff.

Jeanne O'Grady and Val Murphy went to the ACL (Association of Children's Librarians) workshop – Your Library is the Common Core: CCSS, STEM/STEAM, and How Libraries Fit – in San Francisco. Both have brought back information to share with their teams.

Several staff attended training on how to write and run reports on the new ILS.

B. SCPL is committed to developing current library staff to become tomorrow's library leaders.

Laura Whaley completed her 1 week residency as part of the Eureka! Leadership Program. She will now begin work on her grant funded project.

- C. Employees have the skills to execute change and are committed to change and continual improvement.
- C. A customer-driven service philosophy guides staff training and development.

The focus in March has been on training for the new ILS- Polaris in order that staff is able to provide seamless service to the public when we go live on April 9.

Marcus Pimentel, City of Santa Cruz Finance Director (03/28/14) Monthly Dashboard Report: Library's February 2014 financials Finance Committee- Library Joint Powers Authority Board FROM:

PUBLIC LIBRARIES SANTA CRUZ

February 2014 Preliminary, Unaudited

loss includes those one time payments like the retirement of long term debt and services and supplies that were carried over from the prior year. At the mid-year review expenditures are slightly over-budget by 0.6% due to one-time payments. This has resulted in a year-to-date net operating loss of \$-161,530. The planned operating Contained herein is the preliminary, UNAUDITED February 2014 Dashboard summary report. In general, revenues remain ahead of our target by 1.7% and and after board approved mid-year adjustments, staff estimated the current year could finish with a small 1% surplus (appx \$120k).

- For sales tax, September, December, March & June include the State's estimated revenue plus any balances for actuals vs. estimates for the prior 3-months (true-up). (7)
  - The adopted budget included financing sources of an initial \$324k from board approved, one-time reserves to fund one-time payments (ILS, pay off debt, capital maintenance, materials, etc). The initial amount was increased for additional, prior-year projects re-budgeted in the current year using prior-year surpluses. 3
    - January payroll costs included a third payroll cycle that occurs twice per fiscal year. The first time was in August. (4)
- In February, the four largest expenditures within 'Other expenditures' included: [Financial services outside at \$47k]; [Software maintenance services at \$24k]; [Library functional supplies at \$17kj; and [Vehicle work order charges - internal at \$7kj. (2)
  - Earlier this fiscal year, planned one-time costs temporarily reduced cash balances below the targeted, year-end reserve. For February, cash was above the reserve by \$1,216,612. (9)
- January's "Other Revenue" was revised to reflect additional revenue accrual of \$1,454. 8

### Status Update for ILS Implementation April 1, 2014

#### Overview

The implementation of the new ILS is still on target for April 9

### Details

The major announcement came on April I and was not an April Fool's joke. Polaris was acquired by Innovative Interfaces Inc. (III). You may remember that III was our second choice. This came as quite a shock to us., as apparently it did to many of the Polaris staff we spoke to today. Teresa is working with the City Attorney on ensuring that the contract obligations are still in effect. It does appear that III is gaining on the deal by getting access to technology that Polaris has that III has been trying to move towards. We are hoping that the Polaris commitment to customer service is also mirrored by III. The good news is that the headquarters will be in Emeryville, CA where III is located. This does bring us closer to our vendor than Syracuse NY which was perhaps the only concern of any note we had about Polaris as compared to III. We have been assured that the product we just purchased will continue to be supported for quite a while. It is inevitable, however, that at some point in the hopefully distant future, they will settle on one product rather than the two major ones they are now going to be supporting.

Due to a last minute need to rebuild the Library's network, the roll out of the new Public PCs was postponed until after the rollout of Polaris. At this point in time, the majority of the PCS have been configured but we don't want to add any additional layers of complexity to the go live of Polaris.

The value of the marketing paid off during the recent down time due to the network rebuild. We received no complaints and the public was very understanding. We are hoping for the same as we approach the cutover. At least the upcoming down time will not involve lack of access to the Internet in general. We are making arrangements to continue some access to the e-book collections while we cut over to Polaris. The issue is that when a patron accesses one of our databases, the database looks to our ILS for confirmation the patron is really a patron. Since there will be no ILS for a week, this authentication cannot happen but several of our vendors are providing workarounds.

Volunteer Coordinator, Denise Fritsch, and her Americorps Volunteers are supplying volunteers to help the public when Polaris goes live and for the ensuing two weeks, at a minimum. These volunteers are called Tech Ambassadors. If successful, we will look to continue and expand their use.

Staff has been training during the month of March and a number of staff received training in how to write and run reports. We are all looking forward to trying it out for real instead of on the training database.

As approved at last month's LJPB meeting, all branches will open at 1 pm on Wednesday April 9 in order to provide extra time to catch up with check ins after being down for 5 days.

FROM:

Teresa Landers, Library Director

RE:

Support for Library legislation

**RECOMMENDATION:** Approve motion to authorize Library Director Chair to send a letter on behalf of the LJPB in support of SB1455 and the State Budget Item #6120-215-0001.

#### SUMMARY

Two important pieces of library related legislation are pending and library supporters throughout the State of California have been asked to write letters in support. One is related to the establishment of a Library Bond Fund (SB1455) and the other is to support statewide library broadband services (Budget Item #6120-215-0001).

#### **BACKGROUND**

SB1455 concerns Library Construction Bonds. A needs assessment conducted by the California State Library in 2007 indicated that the new construction and renovation needs for California public libraries exceeded \$8 billion.

The dissolution of Redevelopment Agencies has eliminated any recourses other than tax increases or the approval of general revenue bonds to provide local funding for the construction and renovation of library facilities.

Budget item #6120-215-0001 is from the California State Library and is a request for 2.5 million in ongoing general fund money for public libraries to allow them to join a major high-speed broadband network, operated by the Corporation for Education network Initiatives in California (CENIC). An additional \$1 million in one-time funding would be provided for the purpose of providing grants to libraries that may need additional assistance with the purchase of circuits or other augmentation, in order to join the CENIC network. CENIC has served the K-12, University of California, CSU and community college systems for many years with great success.

#### DISCUSSION

SCPL is working on implementing the facilities master plan completed last year and a minimum of \$63 million has been identified in immediate needs and 10 year capital maintenance projects. Should a statewide library bond measure be enacted, SCPL will be well positioned to apply for the funding which will, no doubt, be a very competitive process. With the facilities plan completed and, by the time this passes, several projects being "shovel ready", SCPL will be in a very competitive position. These awards will, most likely, include a local match which will be easily met by our successful ballot initiative.

SCPL will also benefit greatly from the CENIC funding. Since we already have high speed (broadband) access at all our branches due to our recent contract with AT&T, once that contract expires, we will be well positioned to take advantage of the extremely reasonable rates that CENIC will be able to offer and possibly greater bandwith at the same cost we currently incur. CENIC also handles the e-rate process for its member libraries and this will result in additional savings for SCPL.

In my role as Library Director, I have written letters in support of both these issues and encourage the Board to do so as well. Each jurisdiction is also encouraged to write letters of support or to adopt resolutions in support. Assistance is available to prepare these upon request.

#### STAFF REPORT

Teresa Landers, Library Director

RE:

Self-check contract approval

**RECOMMENDATION:** Authorize Library Director to enter into an agreement with Bibliotheca for a systemwide self-check upgrade for the amounts listed in the attached quotes: \$173,002.27, \$40,709.61 and 27,709.50 totaling \$241,421.

#### **SUMMARY**

Since the PO is over \$100,000, it requires LJPB approval. Funding is provided by the special allocation of \$160,000 approved in February 2014 and available operational funds. This is requested in order to provide the best possible opportunity to achieve 85-90% rates of self-checkout.

#### BACKGROUND

The Library's self-check system is almost 5 years old and was jerry rigged from day one. The current software is outdated and cannot be upgraded without an investment in the underlying infrastructure.

The goal was to reach 90% self-check. This goal has not been reached in any location and the best has been 52.4% at Aptos with a system average of 49%.

At the February LJPB meeting, the Board approved an expenditure of \$160,000 for the upgrading of the self-check system. With additional operational funds available, the request is for approval of contracts in the amount of \$\$241,421.

The Vendor analyzed SCPL's system wide circulation and gave advice on best practices in the "self check industry". He recommended a distribution model of equipment whereby kiosks are used in the branches with the highest circulation. Best practices indicate that the kiosk is the most popular method of self-check and that mixing kiosks and desktop models is not the best way to achieve high levels of usage. The vendor also provided data showing that libraries using the kiosks to collect fines and fees, recover the additional cost of the kiosk over the desktop in the first year through increases in fines and fees collected, if the total volume of usage is high enough to warrant the kiosk.

Pictures are provided of both the kiosk and desktop models.

#### DISCUSSION

One reason for not achieving 90% self-check is physical layout which will, hopefully, be addressed through the implementation of the facilities master plan and a combined service desk at the Downtown branch. Another is limitations inherent in the current self-check system. The new software and equipment will allow the payment of fees and fines using cash or credit cards as well as being easier to use with less barriers.

There are two other major advantages of the upgraded models- both kiosks and desktops. One is that the new machines can be centrally managed instead of a staff member having to visit each one separately to apply any updates or make repairs. The second is the reporting feature. Right now a staff member has to access each machine individually to get usage data. With the new equipment, each machine will self-report to the cloud and we will be able to access reports on all units from any PC.

Staff worked closely with the vendor, Bibliotheca to refine the design and placement of the self-check units to take best advantage of the existing operational funds and the additional \$160,000 allocated by the Board. The vendor visited branches and made recommendations to help reach the 90% mark with minimal impact on the current physical layout. Based on the vendor's extensive experience in the field, the recommendation is to use only kiosks in the higher circulating branches compared with the mixed environment we had originally designed.

The result was a reconfiguration of the original design and the original contract for \$173,002 in order to provide Aptos, Scotts Valley and Downtown with kiosks only, Felton/Boulder Creek/La Selva Beach/Garfield Park with existing desktops and Capitola/Branciforte/Live Oak with one kiosk each and a backup desktop using the current equipment. This would get kiosks into the most places possible. This is listed below as Option A.

An analysis of the LIT division budget after expenses related to the ILS migration have been solidified, indicates there is additional \$83,000 or a total of \$243,000 available. With this in mind, we decided to see what additional improvements to the self-check system could be achieved. These are presented below as Options B, C, D, E with A presented above.

**Option B: New desktops in smaller branches:** With this option Felton, Boulder Creek, Garfield Park and La Selva Beach would replace existing desktops with new desktops. The primary advantage to this option is that every branch would be getting some new self-check equipment. Total cost: \$200,712

**Option C: Eliminate existing desktops**: With this option Capitola, Branciforte and Live Oak would receive a new desktop to accompany their kiosk and all existing desktops would be eliminated. This achieves the greatest efficiency in administration as ALL machines would now be able to be centrally managed and reporting would be streamlined as well. Total cost: \$220,515

**Option D: Kiosks or Desktops but no Mixing at a location:** This option would replace the desktops at Capitola, Branciforte and Live Oak with a second kiosk. In addition to the efficiencies of Option B, a purely kiosk environment is purported to provide maximum utilization of self-check. Total cost: \$241,422

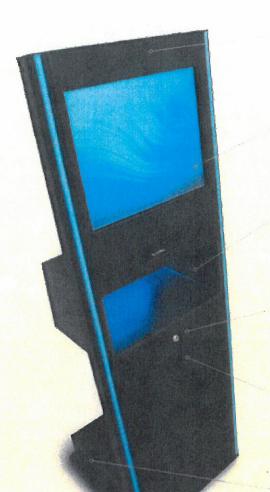

**Option E: All kiosks everywhere:** This option would replace desktops in all locations with kiosks including Garfield Park, Felton, Boulder Creek and La Selva Beach. The primary advantage of this option is consistency throughout the system which makes it easier for customers to move from branch to branch. Total cost: \$265,417

The possible configurations and total costs are thus:

BRANCH	Option A	Option B	Option C	Option D	Option E
Aptos	3 kiosks	3 kiosks	3 kiosks	3 kiosks	3 kiosks
Boulder Creek	1 existing desktop	1 new desktop	1 new desktop	1 new desktop	1 kiosk
Branciforte	1 kiosk, 1 existing desktop	1 kiosk, 1 existing desktop	1 kiosk, 1 new desktop	2 kiosks	2 kiosks
Capitola	1 kiosk, 1 existing desktop	1 kiosk, 1 existing desktop	1 kiosk, 1 new desktop	2 kiosks	2 kiosks
Downtown	4 Kiosks	4 Kiosks	4 Kiosks	4 Kiosks	4 Kiosks
Felton	1 existing desktop	1 new desktop	1 new desktop	1 new desktop	1 kiosk
Garfield Park	1 existing desktop	1 new desktop	1 new desktop	1 new desktop	1 kiosk
La Selva Beach	1 existing desktop	1 new desktop	1 new desktop	1 new desktop	1 kiosk
Live Oak	1 kiosk, 1 existing desktop	1 kiosk, 1 existing desktop	1 kiosk, 1 new desktop	2 kiosks	2 kiosks
Scotts Valley	3 Kiosks	3 Kiosks	3 Kiosks	3 Kiosks	3 Kiosks
TOTAL COST	\$173,002	\$200,712	\$220,515	\$241,422	\$265,417

The staff recommendation is to approve Option D whereby the larger branches only have kiosks and the four smaller branches have the new desktop models. This adheres to industry best practices, and achieves maximum efficiency in terms of administration and reporting. If it appears that the volume in the smaller branches warrants the cost of the kiosks, it will not be a major expenditure to upgrade them.

Attached are the contracts for all 5 options as LJPB approval of these documents is required to proceed.

Sound-enhanced user experience

Vivid 19" touch-screen

Reliable and accurate item detection

Secure and easy to maintain

**Built-in printer** 

Easy to install and secure in-place

Optional payment of fines and fees

Seamless integration with library ILS/LMS

Barcode only checkout option

Integrated receipt printer

EM and EM/RFID version available

#### STAFF REPORT

DATE:

April 2, 2014

TO:

Library Joint Powers Board

FROM:

Teresa Landers, Library Director

RE:

Update on JPA, LFA and ballot initiative issues

**RECOMMENDATION:** Provide direction to Library Director and input for consideration by the Cities and County Administrators Committee.

#### **SUMMARY**

Three areas are addressed in the report:

- Possible changes to the current JPA agreement in order to extend the current agreement for at least 35 years
- Possible changes to the LFA agreement
- Issues related to a possible ballot initiative

#### **BACKGROUND**

The CCAC has been meeting since October 2013. Monthly updates on the progress of this committee have been provided to the LJPB. At the March LJPB meeting, a request was made to provide more detail on the issues being discussed. The following discussion satisfies that request. It identifies areas that are still under discussion as well as those where consensus has been reached and recommendations are ready to be made.

#### DISCUSSION

#### REVISED JPA AGREEMENT

While the entire JPA agreement is under review the following sections are the ones with the most effect on current operations and where there is still discussion occurring.

#### **Powers and Duties**

This section includes the powers included in the current agreement with a couple of significant additions. The first is the *Powers of Authority* with the following three new items:

- "With the approval of each party, to establish a Mello-Roos Community Facilities District pursuant to the Mello-Roos Community Facilities Act of 1982.
- To levy and collect, consistent with the terms of this Agreement, special assessments and to issue revenue bonds as may be statutorily authorized, when so authorized by of the parties to this JPA
- To levy and collect, consistent with the terms of this Agreement, special capital assessments as may be statutorily authorized.

The second is the Assessments and Bonds section which will now require the governing body of each jurisdiction to approve assessments and bonds.

- The Governing Board shall have no power to impose assessments within any Party's jurisdiction unless the Party's governing body first passes a resolution consenting to the assessment.
- Same as above but referring to the issuance of bonds.

#### Term

To date, the only recommended change to this section is to enter into a 35 year agreement as the current agreement expires in 2017. This is in order to have an agreement that will exceed the length of any debt that is issued against a 30 year parcel tax.

Two other sections are still being discussed and need some fine tuning.

- Early withdrawal- Changes current language from five (5) years to three (3) years notice when there are three (3) years remaining on the term. Withdrawal by Santa Cruz shall terminate the agreement (follows current language).
- Effect of termination/withdrawal- Each jurisdiction maintains liability for its proportionate share of any outstanding debt service for system wide costs which exist at the time of termination. (No change in language from current)

#### **Governing Board**

The recommended changes to this section were discussed at the March LJPB meeting. The composition of the board will be changed to include the County Administrative Officer and the City Managers from Cities of Santa Cruz, Scotts Valley and Watsonville. The existing Board will no longer exist. There will be a Library Commission composed of citizens. This is discussed in a separate section. Some of the key aspects of the operating procedures of the new Board include:

- Actions are effective upon approval of a majority of members.
- The Chair and Vice-Chair will be elected in January of each year
- The Board meets quarterly, or more frequently as determined by the Board
- A quorum is a majority of members
- The Board is Brown Act compliant

#### **Library Commission**

As mentioned above, there will a Library Commission which is an Advisory Board to the Governing Board. This provision has not been thoroughly discussed as of yet so there are some areas where recommendations are still forthcoming.

Members will be selected by the jurisdictional governing bodies: 5 from the County, 3 from the City of Santa Cruz, 1 each from the Cities of Capitola and Scotts Valley; representing the geographic diversity of the County and the City of Santa Cruz. The Commission will be composed of citizen electors only.

There is also a feeling that the Commission should include representation by the diverse stakeholders of the Library system- technology, business, education, ethnicity, etc. However, while there is a shared interest in ensuring balance on the Commission, the actual process for dealing with a board that is not widely representative of key stakeholder groups has not been determined yet. One possibility is to have ex-oficio members appointed by the governing board for a limited time. Or, working groups could be created to address specific issues that are raised with appointment to this working group taking into consideration the appropriate voices that need to be represented.

Terms will be 4 years and when first established, lots will be drawn for 2 year terms so that there are staggering terms.

The frequency of meeting has not been defined and it may be that detail will be in the Library Commission by-laws rather than in the JPA agreement itself.

The Library Commission will be Brown Act compliant.

#### **Employees**

Major changes are being discussed. Any decision on how to proceed will need to take into consideration the concerns of employees and of the labor unions; primarily regarding the preservation of current benefit levels and union contracts. Both the quality and functionality of services will also need to be of primary consideration if changes to how current services are provided is changed.

Under the new JPA agreement the Board will be responsible for day to day supervision of the Director of Libraries. Responsibilities (powers and duties) remain basically unchanged except that the Director of Libraries is no longer a City of Santa Cruz Department Head and reports to the Board rather than the City of Santa Cruz City Manager.

For all library staff two arrangements have been discussed:

1. Library employees would continue to be City of Santa Cruz employees which is the current arrangement.

2. Library employees would become employees of the JPA. All agree that, under this scenario, staff must be kept whole and suffer no negative consequences of any change. To this end, the Library Director was directed to work with staff from the City of Capitola and the County of Santa Cruz Human Resources Departments to outline what a transition plan might look like and to examine all aspects of effects on employees. Please note that the CCAC will have its first discussion of this transition plan on the morning of April 7.

#### Summary of Year 1: 2015 ·

Current employees of the City/County Library JPA retain their current MOU with the City of Santa Cruz with the same terms and conditions. The Library JPA Board would, prior to 2015, recognize those existing MOUs. As the current MOUs expire in 2015 and 2016, the new JPB will meet and confer pursuant to the Meyers Milias Brown Act on a successor MOU, which would take effect as each current contract expires. Union representation remains status quo.

Benefit levels would remain unchanged. The same Calpers medial choices would be available to employees with the same employee contributions. Vision and Dental insurance would be contracted back to Santa Cruz, with the same providers and benefit levels.

All aspects of the Human Resources function would be contracted to the City of Santa Cruz for a term of one year with an option to renew an additional year.

#### Summary of Year 2: 2016

The JPB will determine if they will continue contracting Human Resource services with the City of Santa Cruz or consider bringing individual functions in house or with other providers.

#### **Support Services**

The first draft of the new agreement states, "The JPA will obtain support services including counsel, purchasing, payroll, budget, treasury and other services from the Parties or private entities at cost." This clause has not been thoroughly discussed yet and there does not seem to be consensus. There is concern about changing services at this point when it seems to be working fine with the City of Santa Cruz being the provider.

There is a feeling that the issue of how the cost is determined is really what needs to be better defined and that changing from the City of Santa Cruz to another provider is disruptive while not providing any advantage as long as the City of Santa Cruz can offer the service at a competitive price. The City of Santa Cruz is willing to evaluate the current system of charging for services based on 5.5% of operating expenses in order to

determine if another methodology for charging for these services is more acceptable to all the jurisdictions.

The working committee described above did address a transition plan for the support services in addition to their plan regarding Human Resources issues.

#### Summary of Year 1: 2015

<u>Administrative Contracts</u>: Finance will be contracted to the City of Santa Cruz for a term of one year with an option to renew an additional year.

<u>Legal Services</u>: The JPA will enter into a contract for legal services with either a private law firm, or one of the member entities.

<u>Insurance</u>: The JPA will obtain its own Workers Compensation Insurance, Liability Insurance and Property Insurance to be administered by a Third Party Administrator (TPA). In order to obtain coverage for 2015 the JPA will need to begin no later than September 2014. (Library Director's note: Given the current timeline this may not be feasible and this transition may need to be extended to later in 2015.)

#### Summary of Year 2: 2016

<u>Operational Status</u>: The JPA will determine if they will continue contracting Finance services with the City of Santa Cruz or consider bringing individual functions in house or with other providers.

#### Minimum Service Levels

There are conflicting opinions regarding this issue. Please note that the committee has, thus far, only considered number of open hours when defining minimum service levels; not other services that comprise the breadth of what the Library provides such as programming, bookmobile, outreach and community partnerships. The issues fall into two areas:

- Does the specification of service hours belong in a long term agreement or is this more of an operational issue that should be worked out by the governing board?
- If service hours are to be included, should they be specific or general?
  - If general, then they could be mentioned in the JPA agreement as a specific area of consideration for the governing board without specifying the numbers.
  - o If specific, then there is a lack of consensus on what the hours should be, specifically in the newly built branches such as Felton. There is no doubt that a transition from 1,250 to 9,300 square feet is going to change the demand but given it is such a huge change, it is difficult to predict the ultimate best level. It is easier to adjust up than down. There are some who believe Felton will serve as a large neighborhood branch such as

Branciforte does now and others who feel it will be closer to the level of a regional branch. Current usage is not as good an indicator of the future as it might be for other facilities such as Capitola.

Various approaches to this issue have been discussed and the following represents the opinion of the Library Director, and this opinion is not necessarily shared by all members of the committee. The Library Director has cautioned about being too specific in a document of this nature since libraries are changing and adapting as the environment changes. Community needs are likely to change over time and it would be best to not be constrained by a document such as the JPA agreement.

Agreeing to discuss the hours issue on a regular basis and under the purview of the governing board is totally appropriate. When facilities are built or remodeled usage always goes up for the first year then ratchets back a little to a new steady state. This is exactly what we saw in Scotts Valley. With so many changes to so many facilities, it would seem that a wait and see attitude with minimal changes to start would be the wisest course.

#### **System Assets**

Disposing of system assets should one or more entities withdraw or should the system dissolve, is an important provision. "Ownership" has become increasingly difficult to quantify as collections are shared through floating and with the increase in electronic materials which live in the "cloud" and not in any physical location.

In light of these considerations, the CCAC is working on how to best word this section. Most likely, the recommendation will be to use the annual property insurance valuation and materials count to establish a baseline for what a jurisdiction would be able to take with it in terms of assets if they were to withdraw or the system broke up. This represents a snapshot at one point in time annually.

We are compiling a list of Special Collections and they will most likely remain with the Downtown branch.

There is also currently a section that refers to the automation system assets and other equipment purchased on a shared cost basis. We have not yet discussed how to deal with these.

#### **Construction of Library Facilities**

A line has been added that says, "The Director of Libraries shall have the power to sign off on the final design, including furnishings, of any new or remodeled branch library." This is good starting language for which the Library Director suggests the language be revised/expanded to define Library staff involvement in the building/remodeling process

itself and not just a final sign off. It is believed the intent is involvement in the process itself but the language needs to make this clear.

#### REVISED LFA AGREEMENT

A variety of approaches to changing the terms of the Library Financing Agreement have been discussed. Under the current arrangement, both the Cities of Watsonville and Santa Cruz contribute a defined amount (Maintenance of Effort) which has not changed since the agreement was signed in 1996. The other cities and the County contribute based on property taxes and their amount has increased as property values have increased. Santa Cruz was subsidizing the system considerably in the early days, so the current discrepancy is not as great as it is for Watsonville.

Proposals to revise the agreement focus on Watsonville and Santa Cruz and talks are underway with the City Manager of Watsonville. For Watsonville, a long term arrangement (date still being defined but around 15 years) is being discussed. Under this agreement, Watsonville would not receive any increase in funds from the County Library Fund for about 7 years. After 7 years, Watsonville would get a reduced amount each year until they were only receiving their "fair share" from the Library Fund. This "fair share" is defined as payment for library services provided to the population of the unincorporated County within a two mile radius of the Watsonville and Freedom branches. This population is currently about 9,000 people. Once the leveling has been achieved, Watsonville would receive annual increases from the County Library Fund in proportion to the increase in that fund (i.e. the increase in property taxes collected).

The City of Santa Cruz only recently received data from the County so that the City of Santa Cruz can develop a similar schedule, albeit the payback piece may, or may not, come into play.

One issue that has not yet been discussed and will not be part of the new agreement itself is how to handle the increment the JPA would be receiving each year due to changes outlined above. The Library Director's recommendation is that any incremental funding received by the Library District from any changes involving Watsonville and the City of Santa Cruz, should be directed to a long term capital maintenance fund to be used after the funding from the ballot initiative has been depleted.

#### **BALLOT INITIATIVE**

The following timeline is provided as a guide to what needs to be done in order to get the initiative on the ballot in June 2015. Please note that this is tentative as a final analysis from the financial consultant, NBS, has not yet been received and exactly at what point the jurisdictions need to approve actions is also not confirmed.

April 21, 2014	Confirm what various parcel tax amounts buy			
	Finalize survey questions			
May 5	LJPB review and feedback of JPA and LFA agreements			
Week of May 5	Poll			
By May 20	Work out details of JPA and LFA agreements and consider LJPB input			
June	Review polls results			
June	Determine boundaries and content of financial measure			
July 7	Share CFD details with LJPB			
July-August	Incorporate LJPB revisions			
September	Jurisdictions approve new JPA and LFA agreements			
•	Current JPB approves content of CFD resolution			
December 1	New JPA and LFA agreements go into effect			
By December 12	Final Resolution of Intention to Establish CFD, including			
The same and the s	Boundary Map and Rate and Method of Apportionment			
	and Resolution of Intention to Incur Indebtedness due to Secretary			
December	Jurisdictional approval for creation of CFD			
December 26	JPA Meeting – Consider Resolution of Intention, including			
	Boundary Map and Rate and Method of Apportionment, consider resolution of			
	indebtedness			
January 9, 2015	Boundary Map must be recorded on or before this date			
January 10	Final Notices of Public Hearing delivered to Secretary			
January 13	Final Resolution of Formation, Resolution Calling the			
Succession Control of the Control of	Election and Consolidation, Resolution Declaring the			
	Necessity to Incur Indebtedness due to Secretary			
January 22	Notices of Public Hearing published on or prior to this date			
February	Jurisdictional approval of resolution of formation, etc			
February 3	JPA Meeting – Public Hearing, Consider Resolution of			
	Formation, Resolution Declaring the Necessity to Incur			
	Indebtedness and Resolution Calling the Election and Consolidation			
March 6	Last Day to Submit Resolution Calling the Election and			
	Consolidation (which reflects exact form of ballot wording) to the County for the June			
	, 2015 election			
March 7-17	10 day public examination period			
March 10	Last day to withdraw a measure from the ballot, Last day to submit ballot arguments			
March 11-21	10 Day public examination period			
March 17	Last day to submit rebuttal arguments			
March 18-28	10 Day public examination period			
June 2	Election Day			
June 5	Final Resolution Declaring Election Results due to Secretary			
July 1	JPA Meeting – Consider Resolution Declaring Election Results and First Reading of			
	CFD Ordinance			
July 2-16	Notice of Special Tax Lien recorded			
August 4, 2015	JPA Meeting - Adopt CFD Ordinance, adopt Resolution authorizing Bond Issuance			

A list of project options was presented in the March LJPB agenda packet. In summary, this is what has been identified as needed in addition to ongoing capital maintenance, which all branches require. The exact amount of ongoing capital maintenance needed is dependent on what happens with the remodels, new facilities and renovations. The following is a summary of identified projects beyond ongoing capital maintenance in order to bring all facilities up to 21<sup>st</sup> Century library standards.

- **Felton and Capitola** need new buildings. We are looking at 9,300 and 12,000 square feet respectively.
- Aptos needs an addition to bring it to about 12,000 square feet
- Downtown needs a gut and remodel with no change in square footage
- Boulder Creek, Garfield Park, Branciforte, and La Selva Beach need remodeling so that these branches can provide 21<sup>st</sup> Century library service.
- Scotts Valley- as a new building it does not need much but by the end of the 10 year period it will be in need of replacement furniture, carpeting, etc. The immediate need is for sound attenuation and possibly an automated materials handling system. There is also the possible option of expansion into the other 1/3 of the building which is currently on option to a theater group looking to create a performing arts space. The usage of the building does justify expansion if funding and opportunity were available.
- Live Oak- The Live Oak building is relatively new (built in 2006). However, it was built just as libraries were beginning to change how they provide service so there is significant remodeling that could be done to create one customer service point and a flexible space that could be used as a meeting room. Alternatively, it has been suggested that additional funding be provided for creating a library sponsored flexible space/meeting room adjacent to the new Boys and Girls Club that is being built at Shoreline Middle School.

As has been discussed at other LJPB meetings, it appears that the only option for funding is through the creation of a Community Facilities District that matches the service district for the library system and is funded via a parcel tax. We will conduct a poll by early May to gauge the level of community support for various levels of a parcel tax. We are also working with Group4 to get a better definition of what various levels of funding will buy.

The total amount needed if the expanded Scotts Valley and Live Oak projects are included is about \$75 million and \$63 million with those two libraries receiving only the funds necessary to meet capital maintenance and minor remodeling needs. As mentioned earlier, what lesser total amounts could buy is being explored and better defined.

An additional issue that is under discussion is who will be responsible for the building of the facilities- the Library JPA or the individual jurisdictions? This also raises the question of ultimate ownership of the facilities. One view expressed is

that each jurisdiction should be allotted their portion of the funds and be responsible for their facilities. Another view is that this should be managed by the JPA with a system wide approach. Either will require a Library based project manager. All agree that Library functional staff needs to be involved with the construction process in order to ensure the facilities meet current (and future) library standards since the Library will be the party responsible for operating the facilities.

Dear Janis,

Thank you so much for your extraordinary support at the council meeting yesterday. You went above and beyond in your generosity and time spent sharing your support for the Abbott Square project. I know that your involvement made a difference, and I'm so sorry it involved so much time waiting. I am excited to work with you to make Abbott Square and especially this special back area a place for transformative learning experiences for families.

Thank you, thank you, thank you. You are a real friend to the MAH and we greatly appreciate it. We are lucky to have you as a partner and as a leader in our community.

Nina

FROM: SANTA ORUZE WEEKLY

### Fur for First Readers at Santa Cruz Libraries

by Cat Johnson on Mar 18, 2014

On a big oval rug in the children's section of the Capitola library sits a scruffy little dog with sandy brown hair and friendly eyes. A boy in a little league uniform is sitting next the dog, reading aloud. Not far away, a giant black Newfoundland named Bitsy is lying on her side listening to a story about some children and their dog. A fluffy Persian cat in a pink bed is taking in the ABCs with a girl in pink sparkly shoes.

It's not your typical library scene, to be sure—but neither is Tales to Tails, a literacy program where children spend 20 minutes reading to a therapy animal. Tales to Tails is among the most popular of our local library programs for reasons that are becoming obvious: It combines both animal and human cuteness, literacy and community engagement. The program's objective is to provide a comfortable, no-pressure environment for children to practice reading.

From what I can see, everything is going according to plan. The little leaguer is sounding out his story, while the brown dog casually surveys the room. Miss Pink Shoes is up and down a few times, taking breaks to run her hand over the soft head of her feline companion, but she always returns to her book. Bitsy is happy on the receiving end of her reader's—I've learned the girl's name is Klarisse— impressive ability to turn pages with one hand and rub Bitsy's belly with the other. Klarisse's small hand is all but lost in the black sea of Bitsy's fur.

The kids, who occasionally ask their animal's handler for help with a word, seem to embrace the concept that the animals are there to help them further their reading skills. They interact

occasionally with them, but don't need prompting to stay focused on the reading. I can't help but think that they're concerned about giving the animals a good storytime experience. "I know she likes me," says the little leaguer softly, to no one in particular.

Klarisse's dad, Ted, confirms my suspicions. He says that when Klarisse is choosing books to read, she oftentimes asks, "Do you think the dog is going to like this book?"

As adorable as it is, there's some science behind the sweetness. A 2010 study by researchers at UC Davis found that young readers who read aloud to therapy dogs improved their reading skill 12 percent over a 10-week period.

And it's not just for kids. Therapy dogs have proven to have such a calming presence that they've even been enlisted to hang out at university libraries during finals week. Yale Law School and M.I.T. are among the schools with therapy dog programs.

In 2010, the Santa Cruz Public Library system created Tales to Tails, spearheaded by Melanee Barash, who's in charge of the Capitola branch. It's now in eight branches around Santa Cruz County, and similar programs with names such as Book Buddies and Reading Buddies exist in libraries around the country.

Program coordinator Laura Whaley says that Tales to Tails has grown mainly through word-of-mouth. The feedback she receives from parents of program regulars is that their reading level has gone up—and their confidence, too. She's also seen kids who are afraid of dogs move beyond their fear through the program. "Being around the therapy dogs," she says, "they're getting over that fear, they're coming out of their shell."

The therapy animals are from one of two organizations, Furry Friends Incorporated or Therapy Dogs International. The furry therapists all have their Good Citizen Certification and have gone through additional training to work with children.

Funded primarily through the library, the program also receives support from the Capitola Dog Owners Group, which provides funding for program rewards. Every time a child participates in Tales to Tails, they get a bookmark. Every fifth bookmark they get a book, and after 25 sessions they get a dog tag that reads, "Paw-some Reader."

As we approach the end of the session, there is indeed an air of calm. I've lost track of the number of books that have been read, but the kids are still going strong. The dogs have moved around a little, but they haven't strayed from their listening posts. Somewhere around the letter R, the cat falls asleep.

#### S.F. library proposes new code of conduct with penalties

Heather Knight

Godsted 4,47 pm, Saturday, March 8, 2015

Just when you think there couldn't possibly be another battle over the behavior of homeless people in San Francisco, along comes a new brouhaha among the stacks at the city's Main Library.

The Civic Center building has long been a bastion for transients, some of whom have forgone good old-fashioned reading for bathing in the bathroom sinks, dealing drugs and exposing themselves. Recent notable incidents include a man urinating on books and another breaking a computer with a hammer.

In January, Mayor **Ed Lee** told the Library Commission that the facility needed to be less "Lord of the Flies" and more "Sense and Sensibility." (Those are our words, not his, you'll be stunned to learn.)

The mayor's letter to the commissioners proposed creating a Family and Education Fun Zone around the library and suggested that the first step should be instituting actual penalties for breaking the library's long-standing code of conduct. Previously, most bad behavior was met simply with a warning to stop.

In response, library staff beefed up the Patron Code of Conduct with much harsher penalties than the admonishment, "Uh, that's a sink not a bathtub." Under the proposals, which will likely be tweaked after community input and voted on by the commissioners this spring, repeat offenses could result in being banned from all the city's public libraries for up to a year.

Library administration would circulate a description of the suspended person to managers at its branch libraries, though it's hard to imagine how the ban would work since there aren't ID checks to enter a library. Suspended persons would get a letter notifying them of the ban and telling them they could request a hearing to try to get it overturned.

"The mayor definitely thinks it's a step in the right direction," said **Christine Falvey**, spokeswoman for Lee. "He is happy that they've really responded with some very substantive changes that have stricter penalties associated with bad behavior at the library."

Falvey added that the mayor wants everybody to behave well at the library and does not want "to single out any population."

City Librarian Luis Herrera agreed, saying, "It's not targeted at any one group - this is a very welcoming environment. It's about making sure people use the library for its intended purpose."

But homeless advocates aren't buying it. After all, who else is likely to bring carts into the building, sleep on the furniture or emit a "strong, pervasive odor" - all of which would be grounds for suspension?

Jennifer Friedenbach, director of the Coalition on Homelessness, said the odor rule is just plain mean.

"You'd have to ask the library how that would work," she said. "Is there a senior sniffer, a supervisory sniffer, and are they the ultimate judge of what is a bad body odor? I know what I smell like when I don't put deodorant on, and it's not pretty."

Herrera said staff, including an in-house social worker, would be discreet in such instances, asking the person to speak in private and sharing information about social services, including places where homeless people can shower and do their laundry.

"We don't want to call anybody out," he said.

Behavior at the Main Library is getting better overall, library staff points out. Since late last year, the library has hired seven extra security staff members, and more police officers are patrolling the building as well. There were 238 incidents of problematic behavior at the library in December, 183 in January and 148 in February. Considering that 5,000 people use the Main Library every day, that's not too bad.

Across all public libraries in the city, instances of bad behavior are down 32 percent in the past two years.

"The odds of you actually being around an incident are very low, lower than if you're in other parts of the city," said **Roberto Lombardi**, facilities director for the library.

The library is using new incident tracking software so staff can easily see when and where particular behavior is spiking and respond by sending extra security. In addition to the Main Library, libraries that have seen their share of trouble include the Mission Bay, Chinatown, Mission and Excelsior branches, library staff said.

The most common broken rule is sleeping in the library, followed by the generic "creating a disturbance."

"That might just be somebody who's mad that their book isn't there," Lombardi said.

Hey, when you want that hot new best-seller, you want it now.

In any case, in reading through the proposed code of conduct, some observations come to mind. Like that it's sad that it actually needs to be written down that people are not allowed to deposit bodily fluids on books, physically abuse staff or have sex in the library. And that the guidelines may occasionally go over the top.

Like the no-staring rule. Really?

Herrera laughed and explained that some staff members have reported being stared at in a threatening way.

"It is subject to interpretation," he acknowledged. "We understand there's room for improvement."

#### Quote of the week

"I just want people to leave me alone. I just want to do my Elmo stuff."

Dan Sandler, a.k.a. "Evil Elmo," who has irked Fisherman's Wharf merchants and street kids with his creepy shtick

### Pew Charts the Motivations of Library Lovers and Distant Admirers

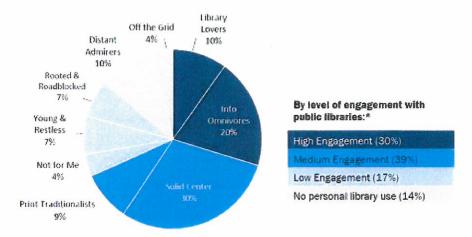

Posted Thursday, March 13, 2014 - 11:22

The Scoop

By Beverly Goldberg

#### Typology snapshot: Groups by level of engagement with public libraries

Each group as a percentage of the general U.S. population (Americans ages 16+)

In a new report issued March 13, the Pew Research Center's Internet and American Life Project has explored the motivations behind the relationships that American adults have with their public libraries. "Rather than describe the basic library usage of various groups, as we've done in the past," Kathryn Zickuhr, the report, titled "From Distant Admirers to Library Lovers—and Beyond," examines what traits go along with different levels of engagement with libraries and the library habits and views people have in common.

The results are based on a nationally representative survey of 6,224 Americans ages 16 and older, Pew reveals, "a sample that is roughly three times larger than that of previous surveys in this research series.

The center's pertinent findings include:

Public library users and proponents comprise a wide swath of America, with 30% being highly engaged with their public libraries and another 39% using their libraries regularly but to a lesser extent.

Americans' library habits tend to reflect their life circumstances. As stated by Pew, "Many of those who are less engaged with public libraries tend to have lower levels of technology use, fewer ties to neighbors, lower feelings of personal efficacy, and less engagement with other cultural activities."

Life stage and special circumstances play a major factor in library use. Students, parents of young children, job seekers, and those researching information to help them make a decision are more avid users; those experiencing more stability (job security) or "less momentous" times (retirement) might not use their libraries as often.

Surprisingly, technology mavens do not eschew library use. Rather, more tech-savvy people are the library lovers who most frequently use public library resources. Information omnivores, who tend to have more education and higher incomes than library lovers, don't use libraries much if at all, but still view them as an essential public service.

The full report is available online.

## NJ State Library and LibraryLinkNJ Partner to Launch Makerspace Projects Statewide

Submitted by gcooper on Tue, 28 Jan 2014, 11:47am

The New Jersey State Library and LibraryLinkNJ, the New Jersey Library Cooperative, have partnered to launch "New Jersey Library Makerspaces - The Leading Edge," an initiative that combines equipment with community-driven innovation, and provides library patrons with the tools and space to collaborate to

design and build manufactured work

The project will subsidize 15 Makerspaces at public, school and academic libraries statewide, and will offer creative laboratories where NJ residents can access equipment and information that they wouldn't otherwise have access to. Users will be able to share resources and knowledge, collaborate on projects, network and build things.

"The contemporary Makerspace movement is really about creating community spaces where people can learn by doing and engage in exploration and creativity using digital and analog technologies. Such spaces can both enrich and empower library users' lives," said Mary Chute, NJ State Librarian. "It's an extension of the library's mission – a place of lifelong learning and community engagement – be it public, academic, school, medical or other type of library."

"Our goal is for libraries to continue to be community centers with tools. We hope to draw in current and new library users of all ages to connect, experiment, and create with a myriad of technology and other materials – in a team, as a family, or as lone explorers," said Cheryl O'Connor, executive director of LibraryLinkNJ. "Patrons can collaborate on projects that are driven by their own interests – such as science and engineering, art and design, and others – and by doing so, develop the capacity and confidence to innovate."

The total budget for this project is \$115,700 - expanded from \$100,000 - with contract awards ranging from \$3,750 to \$12,500. Projects are varied, involving partnerships with local schools, the arts community, and local entrepreneurs, with a wide range of intended audiences and equipment needs.

The following libraries received awards for their projects:

MAKE | AC - Atlantic City Public Library (\$7,500): Dream it - Design it - Do it promotes STEM education, career exploration, self-directed learning, creative expression and entrepreneurship through maker programming to the children and teens of Atlantic City.

Library's Idea and Creation Station - Caldwell College Library (\$3,750): K12 and college educators focus on creating 3D objects for use in classrooms for students with visual impairments or who are tactile/kinesthetic learners.

Sharing Our Stories Makerspace – Caldwell Public Library (\$3,750): A compact, mobile makerspace with digital recorders and scanners will foster the preservation and sharing of local history, memories and photos online using a network of senior citizens, schools and community groups. An added bonus is a guide to help other libraries create a local history-based makerspace.

EBPLay Lab – East Brunswick Public Library (\$7,500) – EBPlay Lab is an open media lab that engages the East Brunswick community in learning and creating content in digital formats. The library will partner with the East Brunswick High School Video Club to sponsor *Record.Play*, a short film competition for teens. Teens will be invited to create a 90 second "trailer" promoting the services of the East Brunswick Public Library.

The MakerStudio at GCLS – Gloucester County Library System (\$12,500): Aligned with the "Educate to Innovate" government initiative, makerspace rooms across the county will engage young and old in creative thinking and encourage community-based innovation and entrepreneurship in the STEM fields of science, technology, engineering, art and mechanics.

Play in Always On. Level Up! - Hillsdale Public Library (\$3,750): An expansion from 2 hours to 50 hours of successful crafting and nontraditional programming through a mini-makerspace and portable workstations with the help of teachers, students, and passionate community tinkerers.

Hoboken Library Creation Space – Hoboken Public Library (\$10,000) – Hoboken Library Creation Space will be a place for community members of all ages and skill levels to have access to tools, technology and training on robotics, editing software and coding. Staffers will collaborate with Stevens Technical Institute students to provide instruction for local high school and middle school students.

MHS Innovation Lab - Manasquan High School Media Center (\$5,000): 3D print and scan focus for students - with facilitators- to use creative problem solving and design skills via independent projects.

Make it @ Mount Laurel Library – Mount Laurel Public Library (\$7,499.70) – through hands–on programs and drop–in sessions with maker tools such as Makey Makey, Snap Circuits and Squishy Circuits, the library will complement the STEM curriculum and provide a more thorough understanding of STEM topics. Teachers can explore product design in their classrooms and can arrange for students to print out their designs on the library's 3–D printer.

NBFPL Handcrafting Makerspace – New Brunswick Public Library (\$10,000) – The NBFPL Handcrafting Makerspace will provide free, regular access to products and materials and introduction to a variety of equipment used in handcrafting and traditional methods of creation, including sewing machines, printing with transfer paper, button making, knitting and small looms. Users will come from all parts of the city and will represent all of New Brunswick's diverse populations. The library's Young Adult librarians will host special programs designed to allow teens their own unique access to makerspace items.

Old Bridge Library Idea Farm – Old Bridge Public Library (\$10,000): Creation focused makerspace for a community rooted in agriculture and self-sufficiency with a demonstration garden exploring emergent technologies and home crafts.

M3: Making Memories with Makerspace – Parsippany–Troy Hills Public Library ((\$10,000) – the new M3 ("M Cubed") space will provide the digital resources and space for customers to create films and photographic memories. Individual users and members of community organizations will learn from each other. Middle school students will be training buddies for adults who need assistance with the equipment, which will include software for creating films and photo editing and equipment for digitizing photos.

The Enterprise Zone – Plainfield Public Library (\$7,500) – this makerspace will invite artists, designers, craftsmen, hobbyists and students to explore the potential of digital technology and learn how to apply it to their artistic vision. Specialized equipment such as a WACOM drawing tablet and a large format scanner/printer will allow users to scan and/or generate prints up to 36 inches wide for portfolios, art projects and advertising. Community groups and local artists have already expressed strong support for the creation of this makerspace.

Fordham FabLab: Multimedia Collaboration Makerspace – Rutgers University Libraries (\$8,796): Foster collaboration among sciences, humanities and performing arts students/faculty to enhance creativity for all in a multimedia space that includes 3D printers and a 3D scanner.

Makerspace on the Go – Somerset County Public Library (\$8,157) – Makerspace on the Go – this will be a mobile digital makerspace which will be available for use by all of Somerset County Library's branches. The mobile makerspace will also be available at venues outside of libraries, including senior centers, business organizations and the Somerset County 4–H Fair. It will provide an opportunity for groups of multigenerational individuals to create new and edit existing digital content. Members of the business community can create new electronic marketing materials, seniors will create and/or edit personal electronic materials, and students will be able to create video gaming programs or file servers.
